High Connectivity via 5G – Hi5

Toulouse Métropole and Alsatis as network provider execute a joint project "High Connectivity via 5G – Hi5" for the introduction of 5G services in the Toulouse metropolitan area.

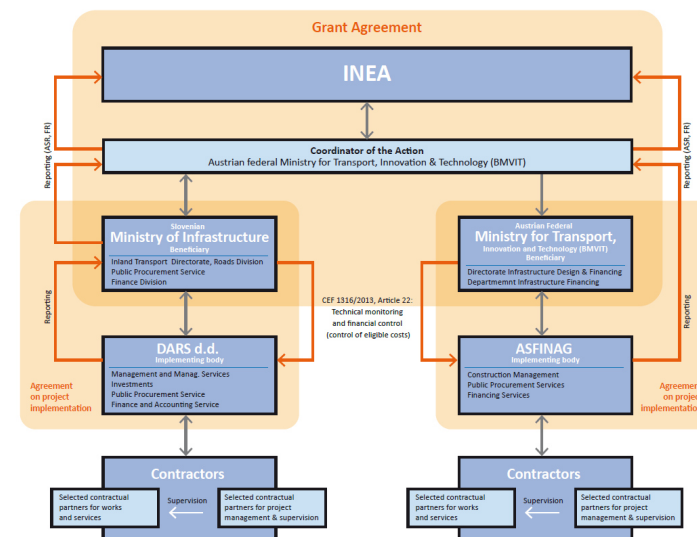

- "City Services" – enhancing the abilities of authorities in the areas of traffic management and supervision of public space
- "Event Connectivity" – focusing on the need to flexibly deploy recording and communication equipment during outdoor events
- "Mobility Lab" – offering area-wide access to net-based services with ultra high speed for start-ups and small enterprises
- "Education" – taking teaching and academic research at the University of Blagnac to a new level
- "High-speed video data offloading" – making the public transport in the metropolitan area safer and more user friendly
